Curing Solutions**

AutoCure™ 8000 Panel Heater

The AutoCure™ 8000 Panel Heater provides energy in the infrared spectrum through the use of specially designed emitters and reflectors. This unit is engineered specifically to dry complete panel sections. The Panel Heater incorporates ITW BGK patented control technology for process accuracy and consistency; and are completely wired, tested and built to industry acceptable standards.

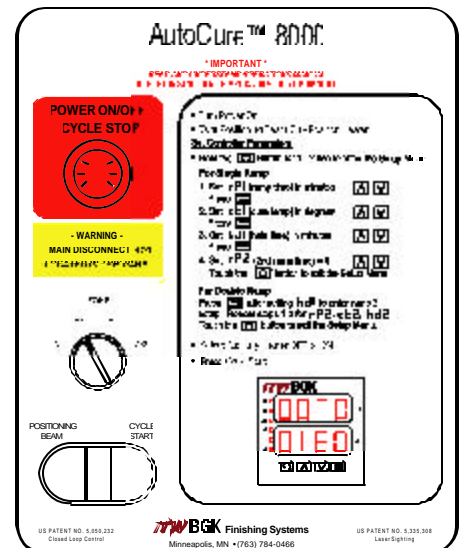

Patented Features:

Laser-Sighting
Patent 5,335,308

Closed Loop Temperature Control
Patent 5,050,232

Primary features are:

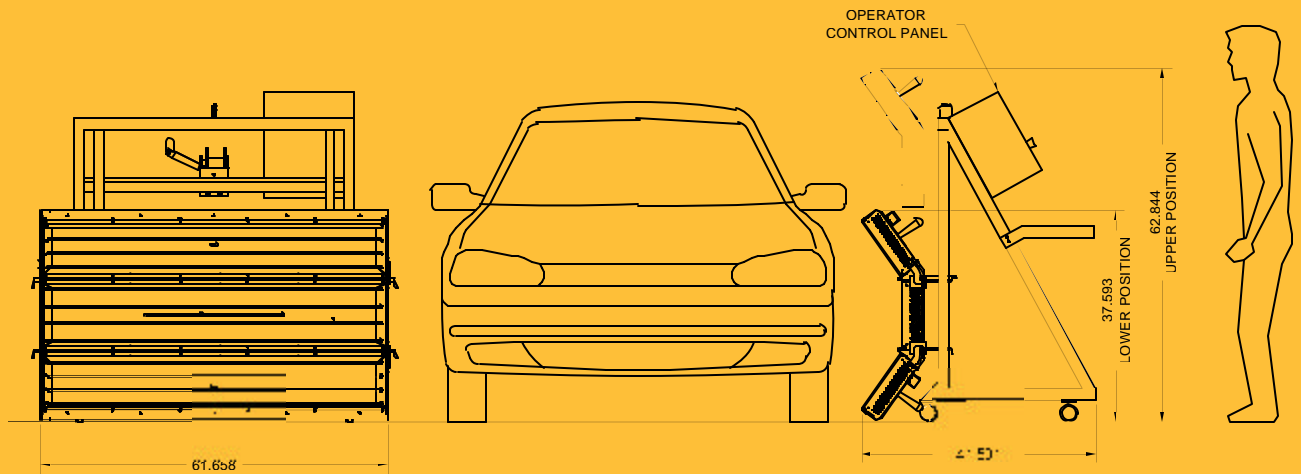

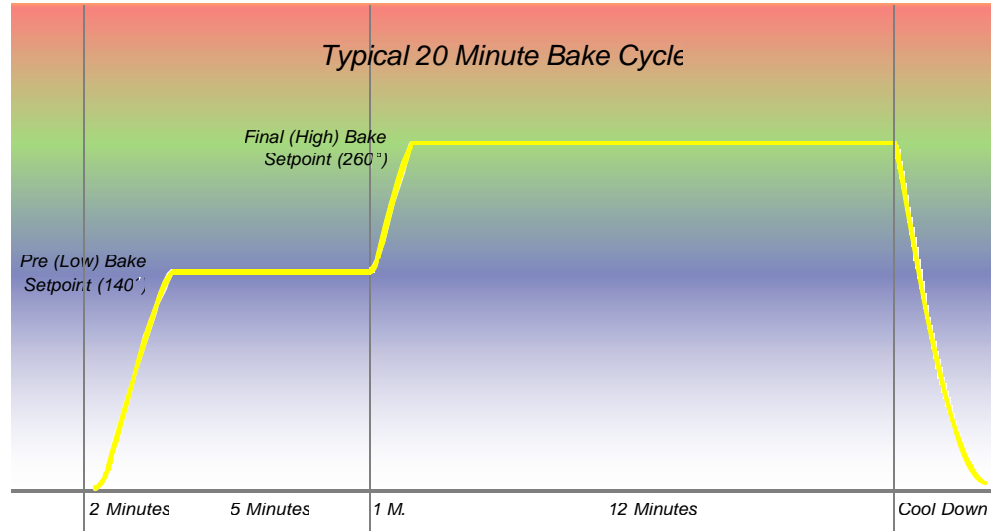

- ♦ Accurate to $\pm 5^{\circ}\text{F}$
- ♦ Automatic control
- ♦ Automatic timed heat cycle
- ♦ Cycle-time-remaining display
- ♦ Automatic shut-off
- ♦ Heater remains in place without locking handles
- ♦ Locking wheels to maintain position
- ♦ Single or dual temperature setpoint capability
- ♦ Heating range to 400°F (204°C)
